About Me

I am Mehedi Hasan, a WordPress Developer with over 2.5 years of experience, specializing in building custom WordPress themes and crafting professional websites using Elementor. I focus on creating websites that are not only visually appealing but also optimized for performance and usability, whether for personal blogs, e-commerce stores, or corporate businesses. My core strength lies in WordPress Theme Development and Elementor-based website creation. While I have basic experience developing simple plugins for clients, my expertise is primarily in custom theme building and Elementor widget development, where I can turn client ideas into functional, user-friendly solutions.

Work experience

- 2.5 year's+ experience
  Web Development

Previously worked at a service-based IT company, and I am currently working at a software company, Softcarfty, as a WordPress Theme Developer

- Specialize in crafting bespoke WordPress websites that are visually stunning and functionally robust

- Collaborate with clients to gather requirements and translate their visions into effective web solutions.

- Utilize popular page builders such as Elementor and Gutenberg to enhance design flexibility and usability.

- Lead development teams, providing guidance and support to ensure timely project completion.

- Troubleshoot common WordPress issues, including layout and performance problems, to maintain optimal functionality.
